STEADFAST SCHOOLS
PROACTIVE SCHOOL SAFETY · 24/7

CAPABILITY STATEMENT

Steadfast Schools

Proactive, 24/7 monitored school safety for K-12 districts, charter and private schools. Delivered by Freedom Technology Partners LLC, an SBA-certified Service-Disabled Veteran-Owned Small Business (SDVOSB).

SBA U.S. Small Business Administration — SERVICE-DISABLED VETERAN-OWNED CERTIFIED

SBA U.S. Small Business Administration — VETERAN-OWNED CERTIFIED

Core Competencies

- **24/7 monitored campus safety:** AI detection on cameras, sensors and doors; a trained analyst verifies every alert (about 5 seconds on average) before the district's response plan runs.
- **Weapon detection & plate recognition:** visible firearms and district-flagged vehicles in lots and at the perimeter, with sirens and live talk-down.
- **Safety sensors:** vape and THC, smoke, sound, temperature and leaks in restrooms, locker rooms and server rooms. Never cameras in private spaces.
- **Visitor ID & front entry:** doorbell ID checks before the door opens; every visit logged; flagged visitors stay outside.
- **Law-enforcement support:** verified 911 details, live video and camera-to-camera tracking during incidents, under district rules.
- **Physical security integration:** cameras, access control and door lockdown on Verkada and Ubiquiti UniFi platforms; reuses existing hardware where possible.
- **Campus technology & emergency deployment:** networks and cybersecurity through Freedom Tech, plus a mobile unit that restores internet, phones and cameras after a disaster.

Differentiators

- Founded and led by active North Carolina law-enforcement officers.
- U.S.-based analysts in our North Carolina operations center, 24/7, background-checked to FBI CJIS standards.
- Security built to the requirements we follow for public-safety and defense work: CJIS, NIST SP 800-171 and GCC High.
- The district owns its data, sets retention and can export it anytime; every video view is logged; supports FERPA.
- One team for physical and cyber security. No long-term contracts; fully insured, with proof on request.

Relevant Experience

- **Backed by Freedom Tech:** 100+ clients since 2010, from one-time projects to multi-year managed services, including schools and public safety.
- **24/7 operations:** an in-house Network & Security Operations Center monitoring networks, cybersecurity, video, access control and LPR.
- **Leadership:** Leo Castellanos, CEO (criminal investigator, Harnett County Sheriff's Office; retired U.S. Army Special Operations) and Matt Jones, President & CTO (deputy and field training officer, Harnett County Sheriff's Office; founded Freedom Tech in 2010).

Steadfast is one layer of a safety plan, not a guarantee. Weapon detection identifies firearms visible to a camera; features depend on hardware and configuration.
